AND ENERGY

**POSITIVE ENERGY REGIONS FOR
GREEN GROWTH**
MINISTRY OF ECOLOGY, SUSTAINABLE DEVELOPMENT
AND ENERGY

PRIORITY ACTIONS

A call for projects, *200 positive energy regions for green growth*, has been launched to accelerate concrete actions that contribute to:

- 👉 attenuating the effects of **climate change**, so that France can be an exemplar at the Paris Climate conference;
- 👉 encouraging the **reduction in energy needs** and the development of local **renewable energies**;
- 👉 facilitating the establishment of **green sectors** to create **100,000 jobs** over 3 years;
- 👉 recovering **biodiversity** and enhancing our **natural heritage**.

PRIORITY ACTIONS

POSITIVE ENERGY REGIONS FOR GREEN GROWTH

MINISTRY OF ECOLOGY, SUSTAINABLE DEVELOPMENT AND ENERGY

THAT MAY BENEFIT FROM THE ENERGY TRANSITION FINANCING FUND

"France is emerging as one of the world-leading environmental players. We have the talent for it. The draft legislation on energy transition for green growth and the associated action plans provide each of us - citizens, businesses and regions - with a framework for action and creating 100,000 green growth jobs."

Ségolène Royal

REDUCE ENERGY CONSUMPTION IN BUILDINGS AND PUBLIC SPACES

- 1_ Energy saving actions for private householders:** replacing energy intensive electric heaters, distributing very low energy bulbs, insulating lofts, housing refurbishment passports, replacing old boilers, etc.
- 2_ Rollout of services and grids associated with smart meters.**
- 3_ Creation of a one-stop shop for information and advice** on upgrading the energy efficiency of homes: energy transition tax credit, zero rate loans for energy-saving work, subsidies from the Anah, the national housing agency, and recommendations for refurbishment.
- 4_ Modernisation of street lighting.**
- 5_ Energy audit** of one or more public buildings with a view to refurbishing them.

5 unifying principles

Job creation

Cheaper bills

REDUCE GREENHOUSE GAS EMISSIONS AND POLLUTION RELATED TO TRANSPORT

- 6_ Renewal of public vehicle fleets with **clean vehicles**.
- 7_ Development of public spaces to promote **clean mobility**: reserved parking spaces for electric vehicles, cycle paths and secure cycle parking, carsharing points, etc.
- 8_ Support for businesses in establishing **travel plans** for their employees.

DEVELOP THE CIRCULAR ECONOMY AND SUSTAINABLE WASTE MANAGEMENT

- 9_ Help with the **planned abolition of single use plastic bags**.
- 10_ Actions to **combat food waste**.
- 11_ **Waste sorting** at source and innovative processing and recovery equipment.

PRODUCE LOCAL RENEWABLE ENERGIES

- 12_ Programme to **roll out local renewable energies**: biomass heat networks, agricultural and industrial methanisers, solar thermal energy, wind and photovoltaic farms, cogeneration, residual and geothermal heat recovery, etc.

*Climate
objective*

*Health and
quality of life*

*Zero
waste*

PRESERVE BIODIVERSITY, PROTECT LANDSCAPES AND PROMOTE SUSTAINABLE URBANISM

- 13** _ **Zero pesticide** approach based on the *Healthy soil, pesticide-free municipalities* project.
- 14** _ **Nature areas** in schools and **organic vegetable patches**.
- 15** _ **Teaching apiaries** and **insect nest boxes** (national pollinator plan).

DEVELOP ENVIRONMENTAL EDUCATION, GREEN CITIZENSHIP AND COMMUNITY INVOLVEMENT

- 16** _ **Civilian service** programme on energy transition.
- 17** _ Organisation of **public competitions** such as the *Positive energy families* challenge.
- 18** _ **Crowdfunding** of projects.
