Information about the microlight

Model name:
Class: 1 – paramotor
<input type="checkbox"/> New form <input type="checkbox"/> Revision of form n°
Description of the microlight: I hereby certify that the microlight complies with the attached description

Compliance with the applicable technical conditions

I hereby certify							
<input type="checkbox"/> that the microlight meets the following technical airworthiness conditions:							
- the technical conditions in § 7 of the instruction of 21 February 2012 pertaining to microlights							
- the additional technical conditions ¹ relating to novel or unusual uses or design characteristics:							
	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 50%;">Particular conditions</th> <th style="width: 50%;">Additional technical conditions</th> </tr> </thead> <tbody> <tr> <td><input type="checkbox"/> None: the microlight does not have any particular characteristics of use or design requiring additional technical conditions</td> <td></td> </tr> <tr> <td><input type="checkbox"/> Specify²:</td> <td></td> </tr> </tbody> </table>	Particular conditions	Additional technical conditions	<input type="checkbox"/> None: the microlight does not have any particular characteristics of use or design requiring additional technical conditions		<input type="checkbox"/> Specify ² :	
Particular conditions	Additional technical conditions						
<input type="checkbox"/> None: the microlight does not have any particular characteristics of use or design requiring additional technical conditions							
<input type="checkbox"/> Specify ² :							
<input type="checkbox"/> all the corresponding proof is at the disposal of the authorities.							

(1) As per article 8-1 of the amended decree of 23 September 1998 pertaining to microlights, the minister can impose additional technical conditions to take account of new or unusual uses or design characteristics relative to the design practices on which the applicable technical conditions in § 7 of the instruction of 21 February 2012 pertaining to microlights are based.

Note: technical conditions have been predefined for the following cases: emergency parachute, retractable undercarriage and variable-pitch propeller. However, for the additional technical conditions that do not concern only the wing, it is up to the holder of the identification card to make sure that they are met, depending on the trike or the cradle used.

(2) The requester must contact DSAC/NO/NAV (ulm@aviation-civile.gouv.fr) if the wing has any other new or unusual design or use characteristics that may require additional technical conditions to be defined.

Signature

I hereby declare that the above information is sincere and that I have been informed that any false declarations are punishable by law.	
Date:	Name, surname and signature (and company stamp, where appropriate):
<small>Note: the requester cannot delegate the authority to sign this form to a representative.</small>	

Attachments

In all instances	<input type="checkbox"/> The description of the microlight (form R8-ULM-F001) <input type="checkbox"/> Proof of compliance with the applicable technical conditions (including any additional technical conditions) <input type="checkbox"/> User and maintenance manual(s) <input type="checkbox"/> Proof of payment of the 100 € fee due (<i>unless the request concerns a revision of a fiche</i>). A unique fee of 100€ can cover several requests for the same wing model with different sizes (<i>if the requests are sent at the same time</i>).
If any justificatory documents are sent by a representative	<input type="checkbox"/> The mandate delegating the authority to the representative (<i>unless already sent</i>)

This form and the attachments must be sent to DSAC/NO/NAV: ulm@aviation-civile.gouv.fr
